Highlights of the first half of 2025

On February 5, 2025, the Teleperformance Group finalized the acquisition of ZP Better Together, a leader in the provision of language solutions and technology platforms to deaf and hard of hearing individuals in the United States. The acquisition price amounted to US\$500.9 million (see note 2.1 *Changes in consolidation scope during 2025*) and was financed through debt (see note 7.2 *Financial assets and liabilities*). ZP Better Together has been consolidated by the Group with effect from February 1, 2025.

Note 1 Principal accounting policies, judgements and estimates

Note 1.1 Reporting entity

Teleperformance ("the Company") is a company domiciled in France. The condensed consolidated interim financial statements of the Company as at and for the six months ended June 30, 2025 comprise the Company and its subsidiaries (together referred to as "the Group").

The consolidated financial statements of the Group for the year ended December 31, 2024 are available upon request from the Company's registered office at 21/25 rue Balzac, 75008 Paris, or from its website (www.teleperformance.com).

All financial information presented in euro has been rounded to the nearest million unless specified otherwise.

Note 1.2 Basis of preparation

These condensed consolidated interim financial statements as at and for the six months ended June 30, 2025 have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended December 31, 2024 which are included in the 2024 universal registration document that was filed under no.D.25-0074 with the AMF (the financial markets regulator in France) on March 6, 2025. The footnote disclosures have been selected in order to analyze the principal events that have occurred since the previous reporting

date and their impact on these condensed consolidated interim financial statements, and to obtain an understanding of the changes in the financial situation and of the performance of the Group over the reporting period.

The accounting policies have been applied consistently to all periods presented in these condensed consolidated interim financial statements; comparative period amounts have been restated following remeasurement of the assets and liabilities of Majorel (see note 3.2 *Segment reporting*).

These condensed consolidated interim financial statements were approved by the Board of Directors on July 31, 2025.

Note 1.3 New IFRS standards and interpretations

New IFRS standards, amendments and interpretations applicable from January 1, 2025

The amendment to IAS 21 *The effects of changes in foreign exchange rates* requiring disclosure of information on the impact of a currency not being exchangeable came into force with effect from January 1, 2025 but had no impact on the Group's financial statements.

New IFRS standards, amendments and interpretations adopted by the European Union but not yet applicable as of June 30, 2025

The Group has elected not to early apply the amendments to IFRS 9 *Financial instruments* and IFRS 7 *Financial instruments: disclosures* which clarify the classification of certain financial instruments. The Group is currently reviewing any potential impact to the presentation of its financial statements.

Note 1.4 Risks related to US fiscal and commercial policies

The Group's business activity has meant that the recent decisions taken by the US government in respect of customs duties have had no direct impact on its value chain. However, in the event that these decisions result in significantly higher prices for the computer

and telecommunications equipment in use by the Group in the United States, the amount of investments of its US subsidiary could be increased. The "One Big Beautiful Bill Act", enacted on July 4, 2025, is not expected to have a material impact on the Group's operations.

Note 1.5 Estimates and judgements

The preparation of financial statements in conformity with IFRS requires making estimates and assumptions which affect the amounts reported in the financial statements, especially with respect to the following items:

- the measurement of the recoverable amount of intangible assets and goodwill (note 4);
- the measurement of intangible assets acquired as part of a business combination;
- the measurement of share-based payments expense (note 3.5);

- the measurement of post-employment benefit obligations (note 3.8);
- the measurement of derivative financial instruments (note 7.3);
- the effective tax rate and uncertainty over income tax treatments (note 5);
- the measurement of provisions (note 9.1).

The estimates are based on information available at the time of preparation of the financial statements, and may be revised, in a future period, if circumstances change, or if new information is available. Actual results may differ from these estimates.

Note 2 Consolidation scope

Note 2.1 Changes in consolidation scope during 2025

Acquisition of ZP Better Together

On February 5, 2025, the Group finalized the acquisition of the entire share capital of ZP Better Together, a leader in the provision of language solutions and technology platforms to deaf and hard of hearing individuals. The acquisition, announced on November 26, 2024, has been approved by the relevant regulatory authorities. This acquisition, which enhances LanguageLine Solutions' portfolio through the addition of key services, is in line with the Group's development strategy aiming to strengthen its Specialized Services business.

The acquisition price, which amounted to US\$500.9 million, is final and was entirely financed through debt. Transaction costs amounted to €1.2 million and have been expensed as other operating expenses.

The following schedule sets out group management's best estimate as at the date of preparation of these financial statements of the fair values at the acquisition date of the identifiable assets and liabilities of ZP Better Together:

<i>(in millions of US dollars)</i>	Provisional amounts as of the acquisition date
NON-CURRENT ASSETS	
Right-of-use assets	7
Property, plant and equipment	18
Intangible assets	391
Deferred tax assets	10
Total non-current assets	426
CURRENT ASSETS	
Accounts receivable – Trade	41
Other current assets	2
Other financial assets	1
Cash and cash equivalents	15
Total current assets	59
TOTAL ASSETS	485
<i>(in millions of US dollars)</i>	Provisional amounts as of the acquisition date
NON-CURRENT LIABILITIES	
Lease liabilities	4
Deferred tax liabilities	98
Total non-current liabilities	102
CURRENT LIABILITIES	
Current income tax	6
Accounts payable – Trade	2
Other current liabilities	9
Lease liabilities	3
Total current liabilities	20
TOTAL LIABILITIES	122
Net assets, acquired 100%	363
Acquisition price	501
Provisional goodwill	138

With its solid customer base, ZP Better Together makes available critical interpretation services through its specialized platforms and skilled interpreters. The measurement of its assets and liabilities is currently being undertaken, and to date the following intangible items have been identified:

- an operating license issued by the US Federal Communications Commission in an amount of US\$308.3 million (€296.7 million);
- customer relationships, for US\$33.1 million (€31.9 million);
- technologies, for US\$40.2 million (€38.7 million);
- the ZP Better Together brand name, for US\$8.9 million (€8.5 million).

The related deferred tax liability amounts to US\$97.6 million (€94.0 million). Provisional goodwill amounts to US\$138.2 million (€133.0 million) and is subject to adjustment before the end of the 2025 financial year. Goodwill represents in particular the value provided by the workforce, its strategic fit with LanguageLine Solutions and the potential revenue synergies. The measurement procedures have carried out with the assistance of independent advisors.

ZP Better Together has been consolidated by the Group with effect from February 1, 2025 resulting in the following contribution to its half-year results:

<i>(in millions of euros)</i>	2/1/2025 - 6/30/2025
Revenues	89
Operating profit*	29
NET PROFIT*	22

* Before amortization of intangible assets acquired.

In the first six months of 2025, its revenues amounted to €108.7 million with net profit of €27.1 million excluding amortization of intangible assets identified on acquisition.

Acquisition of Agents Only

On June 18, 2025, the Group acquired the entire share capital of Agents Only, which is an AI-enabled crowdsourcing platform making available on request highly qualified experts in their particular field throughout the world. Consideration is fully payable in cash in a total amount of US\$19.2 million, of which US\$14.6 million

(€13.1 million) was paid in the first half of 2025, with the remaining US\$4.6 million representing price adjustments due subsequently. Agents Only recorded revenues of approximately €1.8 million in 2024 and has been fully consolidated by the Group with effect from June 30, 2025.

Other acquisitions and purchases of non-controlling interests

The Group has finalized the acquisition of the remaining 51% of the shares of a Qatar-based entity, whose initial stake was acquired as part of the Majorel acquisition, for a consideration of €8.8 million. Its ownership in the company has increased from 49% to 100%. A gain of €3.7 million has been recognized in "Operating profit" in respect of the remeasurement of its previously held interest at fair value. Consequently, this entity, which was previously equity-accounted, is now fully consolidated with effect from June 30, 2025.

As part of its transformation strategy to adapt to the challenges of artificial intelligence, the Group has acquired non-controlling interests and rights to interests in Sanas, Ema and Parloa. These companies specialize in AI technologies as applied to the customer relationship experience. A total amount of €21.7 million has been invested in these transactions. These investments are included within "Other financial assets" on the statement of financial position.

Note 2.2 Changes in consolidation scope during 2024

The Group did not make any acquisition or disposal of significant subsidiaries in the first half of 2024, although a number of minority interests were acquired in connection with the integration of the Majorel group.

Note 3 Operational activity

Note 3.1 Income

Revenues

* Relates to ZP Better Together acquired in February 2025.

Group revenues in the first half of 2025 amounted to €5,115.9 million, which represents an increase (on the basis of published figures) of 0.8% over the same period in 2024.

On the basis of constant 2024 consolidation scope and exchange rates, the increase amounts to 1.5%.

Other revenues

Other revenues are mainly from government grants.

During the first half of 2025, these amounted to €3.9 million, compared with €4.7 million in the same period of 2024.

Note 3.2 Segment reporting

The CEO monitors group activity as reported to him on the basis of the following segments:

- the Core services segment which includes customer care, technical support and new customer acquisitions, in addition to the management of business processes, digital platform services and the digital solutions consulting activity offered by TP Infinity. It is divided into two principal management regions:
 - Americas, which covers the activities in the countries of North America, the Philippines and India, as well as in Latin America and Guyana,
 - Europe, MEA and Asia-Pacific, which covers the activities in all the countries of the European region, plus the Group's businesses in the Middle East and Africa, Asia-Pacific and the digital solutions consulting business of TP Infinity;
- the Specialized Services segment which includes the interpreting services of LanguageLine Solutions, the visa application management services for government departments offered by TLScontact, the health management business services of Health Advocate, the recruitment process outsourcing services of PSG Global Solutions, the accounts receivable credit management services developed by the subsidiary AllianceOne in North America, and the linguistic and technological solutions proposed to deaf and hard of hearing individuals by ZP Better Together.

(3) Including France: € 473.6 million, United States: € 3,264.2 million and India: € 871.2 million.

Inter-segment operations are not significant and are not identified separately.

Note 3.3 Accounts receivable – Trade

	6/30/2025			12/31/2024
<i>(in millions of euros)</i>	Gross	Write-downs	Net	Net
Accounts receivable - Trade	2,152	-27	2,125	2,200
TOTAL	2,152	(27)	2,125	2,200

Factoring arrangements

A number of group subsidiaries located particularly in Europe, have entered into factoring agreements (representing the transfer of customer account receivables without recourse, with assignment of the benefit under credit insurance policies) in order to sell their customer accounts receivable. The Group's principal program, in place since 2012, was last updated in June 2024 and has an authorized outstanding ceiling of €100 million and is renewable annually by tacit relocation.

After reviewing the agreements, group management considers that the contractual rights to receive the related cash flows have been transferred to the factor. The outstanding receivables concerned totaled €97.0 million and €105.0 million at June 30, 2025 and December 31, 2024, respectively, and have been derecognized.

Under the agreements, the Group retains the credit control and receipt functions in respect of the sold receivables on behalf of the factor.

Note 3.4 Other current assets

Other current assets are as follows:

	6/30/2025			12/31/2024
<i>(in millions of euros)</i>	Gross	Write-downs	Net	Net

Note 3.5 Share-based payments**Current incentive share award plans – the July 30, 2024, July 26, 2023 and July 27, 2022 plans**

Under the authorization given at the Shareholders' General Meeting of May 23, 2024, and subject to a ceiling of 3% of the share capital of the Company at the grant date, the Board of Directors' meeting of July 30, 2024 approved free awards of incentive plan shares in a total amount of 700,455 shares to group personnel, including company officers.

Effective transfer of the free shares is subject to performance conditions and to beneficiaries' continued presence.

Under the authorization given at the Shareholders' General Meeting of April 14, 2022, and subject to a ceiling of 3% of the share capital of the Company at the grant date, the Board of Directors' meeting of July 26, 2023 approved free awards of incentive plan shares in

a total amount of 601,088 shares to group personnel, including company officers.

Effective transfer of the free shares is subject to performance conditions and to beneficiaries' continued presence.

The Shareholders' General Meeting held on May 21, 2025 approved an amendment to the financial performance criteria:

- adjustment of the organic revenue growth criterion through a reduction of the target range and the introduction of an additional share credit percentage;
- increase of the free cash flow achievement criterion.

Two additional overriding conditions are that, over the three-year period, organic revenue growth is at least 10% and that free cash flow should not less than €2.3 billion.

Under the authorization given at the Shareholders' General Meeting of April 14, 2022, and subject to a ceiling of 3% of the share capital of the Company at the grant date, the Board of Directors' meeting of July 27,

2022 approved free awards of incentive plan shares in a total amount of 592,104 shares to group personnel, including company officers.

Effective transfer of the free shares is subject to performance conditions and to beneficiaries' continued presence.

Two additional overriding conditions are that, over the three-year period, organic revenue growth is at least 10% and that free cash flow should not less than €1.6 billion.

Other significant features of these three plans are as follows:

	The July 27, 2022 Plan	The July 26, 2023 Plan	The July 30, 2024 Plan

Additional grants

Under the authorization given at the Shareholders' Meeting of May 9, 2019, the Board of Directors' meeting of July 28, 2021 approved a free award in a total amount of 30,000 incentive plan shares to an employee of the Group. Effective transfer of the free shares is subject to specific conditions related to his particular responsibilities.

The total expense in respect of these award plans amounted to €44.5 million in the first half of 2025.

Note 3.6 Accounts payable – Trade and Other current liabilities

<i>(in millions of euros)</i>	6/30/2025	12/31/2024
Accounts payable - Trade	362	333
Other payables	327	354
Taxes payable	153	166
Accrued expenses	557	591
Other operating liabilities	75	151
TOTAL	1,474	1,595

Other operating liabilities at June 30, 2025 include an amount of €25.2 million (December 31, 2024: €85.8 million) in respect of the negative fair value of derivative financial instruments used for currency hedging.

Note 3.7 External expenses

External expenses amounted to €643.1 million in the first half of 2025 compared with €652.5 million in the same period of 2024. They are comprised essentially of telephone communications costs, equipment maintenance expenses, and all expenses related to the

occupation of premises with the exception of lease expenses under contracts meeting the criteria of IFRS 16. Only lease expenses under contracts for low value assets or for short-term rentals are now included in external expenses.

TOTAL	80	1	7	-5	0	-5	3	81

Note 4 Goodwill

Note 4.1 Methodology

The Group has performed a review, on the basis of its most recently revised budget (April 2025), in order to identify those cash-generating units ("CGUs") having a risk of impairment.

Impairment reviews were made using the following criteria to determine whether it might be necessary to update any of their 3-year plans:

- were the latest 2025 revenues and EBITDA in the April 2025 budget review in line with those forecast at the time the impairment testing was carried out as of December 31, 2024?
- if not, what would the enterprise value of the relevant CGUs have been had the percentage reduction in EBITDA seen in the April 2025 budget review been applied at the time of the 2024 year-end testing?

In view of the macro-economic risks now existing during the first half of 2025, the following additional work was also performed:

- the discount rates for the largest CGUs (CTSS, LLS, Health Advocate, PSG Global Solutions, India and Nearshore) were updated;

- these updated rates were then applied to the forecast cash flows as of the 2024 year-end.

At the 2024 year-end, the CGUs Health Advocate, PSG Global Solutions, Spain, and Eastern Europe had been identified as sensitive. Each of these CGUs has been monitored during the half-year period.

In respect of the PSG Global Solutions and Health Advocate CGUs, the recent change of the Specialized Services management has meant that the determination of their overall business change strategy and the related future operational pathway is being finalized during the second half of 2025. The carrying amount of goodwill will therefore be reviewed during the second half of the year once the new strategy and the means to implement it have been determined.

The first half-year results of the Spain and Eastern Europe CGUs were in line with the 2025 budget but they remain impairment risks as of June 30, 2025 and were included in the sensitivity analysis set out in section 4.2 below.

Note 4.2 Sensitivity analysis

The Health Advocate, PSG Global Solutions, Spain and Eastern Europe CGUs were identified as impairment risks at June 30, 2025.

The following schedule shows the impact of an increase of 100 basis points in the discount rate combined with a reduction of 50 basis points in profitability on the terminal value calculation for these CGUs.

The "amount of impairment" columns reflect the shortfall of each CGU's recoverable amounts compared with its goodwill, restricted to a maximum of the latter amount. A negative amount therefore indicates a potential impairment loss.

<i>(in millions of euros)</i>	Gap between the recoverable amount and the carrying value of capital employed			
	Carrying amount of the capital employed	Increase of 1% in the discount rate	Reduction of 0.5% in the EBITDA rate for the terminal value	Both assumptions taken together
Health Advocate	592	-74	6	-81
PSG Global Solutions	256	-26	11	-30
Spain	164	-20	-14	-34
Eastern Europe	140	-25	-13	-36

Note 5 Income tax

Income tax expense in an interim period is measured by applying the best estimate of the annual weighted average income tax rate to the profit or loss before tax for the period.

Income tax expense in the first half of 2025 amounted to €122.9 million compared with €112.8 million in the first half of 2024,

which represents an effective tax rate of 33.1% compared with 28.0%. The 2025 first half income tax expense has been calculated using the latest budget for full-year 2025 which includes an estimated additional tax expense of €2.7 million in respect of the Pillar Two rules of the OECD in respect of a minimum global tax charge.

Note 6 Equity and Earnings per share

Note 6.1 Share capital and dividends

The share capital at June 30, 2025 amounts to €149,685,912.50 represented by 59,874,365 shares with a nominal value of €2.50 each, fully paid up.

In conformity with the resolution of the Shareholders' General Meeting held on May 21, 2025, the Company made a dividend distribution of €4.20 per share, representing a total amount of €247.9 million, during May 2025.

Note 6.2 Treasury shares

At June 30, 2025, the Group held 129,485 treasury shares acquired under the liquidity contract for a total of €11.2 million, compared with 135,320 treasury shares held at December 31, 2024. The Group also held 960,569 own shares, compared with 586,684 own shares held at December 31, 2024, in a carrying amount of €154.3 million.

The change during the period corresponds to acquisitions totaling 373,855 shares under a share buy-back program authorized by the Shareholders' General Meetings held on May 23, 2024 and May 21, 2025, for a total of €31.3 million. The carrying amount has been deducted from equity.

Note 6.3 Earnings per share

Basic and diluted earnings per share are calculated as follows:

<i>(in millions of euros)</i>	1 st half-year 2025	1 st half-year 2024
Net profit - Group share	249	291
Weighted average number of shares used to calculate basic earnings per share	59,060,221	59,952,607
Dilutive effect of share awards	306,848	278,108
Weighted average number of shares used to calculate diluted earnings per share	59,367,069	60,230,715
Basic earnings per share (in €)	4.21	4.85
Diluted earnings per share (in €)	4.19	4.83

The potentially diluting ordinary shares are those concerned under the incentive share award plans of July 27, 2022 and July 30, 2024 (described in note 3.5 *Share-based payments*) as the related performance conditions were fully or partially satisfied as of June 30, 2025.

/ WEIGHTED AVERAGE NUMBER OF SHARES USED TO CALCULATE BASIC AND DILUTED EARNINGS PER SHARE

	1 st half-year 2025	1 st half-year 2024
Ordinary shares in issue at January 1	59,874,365	63,443,054
Less: treasury shares held	-814,144	-2,860,613
Shares issued during the year		
Shares canceled during the year		-629,834
TOTAL	59,060,221	59,952,607

* Over 5 years: €700 million.

The Group carried out the following financing operations during the first half of 2025:

- on January 15, 2025, a fixed rate bond issue of €500 million redeemable in January 2030 with a coupon of 4.25%;
- redemption of the first tranche (€150 million) of the €600 million term loan obtained to finance the Majorel acquisition with a final instalment in May 2028;
- net increase in commercial paper issues of €147 million;
- draw-down of US\$300 million on the €1 billion credit facility, in addition to an earlier draw-down of US\$100 million.

As of June 30, 2025, outstanding draw-downs under credit facilities totaled US\$400 million (€341 million), compared with €96 million at the 2024 year-end.

The Group had carried out the following financing operations during the first half of 2024:

- redemption of the 2017 bonds on their maturity in April 2024, in the amount of €137.5 million;
- net increase in commercial paper issues of €289 million;
- repayment of the €30 million draw-down obtained from the €1 billion revolving credit facility;
- repayment of US\$100 million from the US\$200 million draw-down obtained from the above €1 billion revolving credit facility.

As of June 30, 2024, outstanding draw-downs under these revolving credit facilities totaled US\$100 million (€94 million), compared with €211 million at the 2023 year-end.

Covenants

The following financial liabilities are subject to financial covenants, all of which were complied with as of June 30, 2025.

/ US PRIVATE PLACEMENTS OF US\$175 MILLION

At June 30, 2025, the relevant ratios were as follows:

	Contractual	Actual

Note 7.3 Foreign exchange and interest rate hedging operations

Revenues and operating expenses of group companies may be denominated in a currency other than their functional currency. In order to reduce exposure to exchange rate risk, hedge contracts have been entered into, principally between the following currencies:

- the US dollar and the Mexican peso;
- the US dollar and the Colombian peso;
- the US dollar and the Philippine peso;
- the US dollar and the Indian rupee;
- the US dollar and the Malaysian ringgit;
- the US dollar and the Egyptian pound;
- the pound sterling and the Indian rupee;
- the euro and the US dollar, the Colombian peso, the Moroccan dirham, and the Tunisian dinar.

The policy of the Group is to cover its highly probable forecast transactions denominated in foreign currency, usually up to twelve months ahead but longer in certain cases. The Group uses forward exchange contracts and plain vanilla foreign exchange options.

In addition, currency hedges are in place to cover the exchange risk between currencies managed within the cash pool and the euro (in particular the US dollar) as well as certain loans between Teleperformance and its subsidiaries.

The Group has also put in place interest rate hedges in order to convert certain liabilities from fixed to floating rates, as well as caps to limit the impact of possible high interest rate rises.

The principal derivative financial instruments in place at June 30, 2025 and 2024 are set out in the two following schedules:

Derivative financial instruments at June 30, 2025 (in millions)	Notional amount in currency	Notional amount in euros at 6/30/2025	Fair value in euros at 6/30/2025	In equity	In 2025 1 st half-year profit or loss

Note 8.3 Acquisition of subsidiaries, net of cash and cash equivalents acquired and other equity investments

Acquisition of subsidiaries, net of cash and cash equivalents acquired, amounted to €481.5 million in the first half of 2025. As disclosed in note 2 *Consolidation scope* the Group has acquired the entire share capital of:

- ZP Better Together, for an acquisition price of €458.3 million, with cash and cash equivalents at the date of acquisition on February 5, 2025 amounting to €14.3 million. The net cash outflow therefore amounted to €444.0 million; and
- Agents Only, for an initial payment of acquisition price of €13.1 million, with cash and cash equivalents at the date of acquisition on June 18, 2025 amounting to €0.1 million. The net

cash outflow as of June 30, 2025, therefore amounted to €13.0 million. An earn-out is planned as part of this acquisition.

The Group has also made the acquisition of the remaining 51% of the shares of its Qatar-based entity for a consideration of €8.8 million, with cash and cash equivalents at the date of acquisition amounting to €6.0 million.

The Group has also acquired non-controlling interests in Sanas, Ema and Parloa, which are companies specialized in artificial intelligence technologies as applied to the customer relationship experience, for total consideration of €21.7 million.

The Group did not make any acquisition or disposal of significant subsidiaries in the first half of 2024.

(€ million)

* Including accrued interest of -€45 million.

Transactions with shareholders comprise dividends in the amount of €247.9 million and treasury share purchases, net of disposals, for €30.4 million.

Note 8.5 Analysis of net cash presented in the condensed consolidated statement of cash flows

(in millions of euros)

	6/30/2025	6/30/2024
Bank overdrafts and advances	-8	-6
Marketable securities	33	66
Cash and bank	1,194	930
NET CASH	1,219	990

Note 9 Provisions, litigation, commitments and other contractual obligations

Note 9.1 Change in provisions

(in millions of euros)	12/31/2024	Increase	Releases		Translation differences	Reclassifications	6/30/2025
			Utilized	Unutilized			
Risks	82	15	-10	-3	-4	4	84
Other expenses	88	3	-9	-1	-1	-2	78
TOTAL	170	18	-19	-4	-5	2	162

Provisions for risks at June 30, 2025 include personnel-related risks in an amount of €30.0 million, principally concerning lawsuits with former employees, particularly in the United States, Italy, Spain, Argentina and Brazil, and commercial-related risks in an amount of €14.5 million, mainly in respect of disputes with a number of Colombian entities' customers.

As legal proceedings are ongoing for most of these disputes, their settlement date is uncertain.

Provisions for risks also include an amount of €20.8 million in respect of social charges, mainly in France and Brazil. Provisions for

other expenses principally concern restructuring provisions of €53.3 million, of which an amount of €51.4 million is in respect of a plan announced during 2024 for the voluntary termination of approximately 600 employees in France. The best estimate of the management of the companies concerned and the Group of the outflow of economic benefits required to settle the obligation is based on information available to it at the date of preparation of the financial statements. The actual expense could differ significantly from this estimated amount. Provisions for other expenses also concern risks relating to the rehabilitation of premises, for €9.5 million.

Note 9.2 Warranties and other contractual obligations

The Group has neither given nor received any significant warranty or guarantees during the first half of 2025.

Note 10 Related parties

The Group has no knowledge of any significant transactions with related parties during the first half of 2025.

Note 11 Events after the reporting date

None.

2.1. RECONCILIATION OF ALTERNATIVE PERFORMANCE MEASURES (APM) WITH RELEVANT IFRS SUB-TOTALS

2.1.1. Change in like-for-like revenues

Change in revenues at constant consolidation scope and exchange rates: the amount of current year revenues, excluding any that arose from acquisitions in the year, less prior year revenues (translated at current year average exchange rates); divided by the amount of prior year revenues (translated at current year average exchange rates).

2.1.2. Revenues

H1 2024 revenues	5,076
Translation differences	-121
H1 2024 revenues at constant H1 2025 exchange rates	4,955
Like-for-like growth	72
Change in scope	89
H1 2025 REVENUES	5,116

2.1.3. EBITDA before non-recurring items (*Earnings Before Interest, Taxes, Depreciation and Amortization*)

Operating profit or loss before depreciation and amortization, amortization of intangible assets acquired as part of a business combination, depreciation of right-of-use assets, goodwill impairment losses, share-based payments expense and non-recurring items (presented as other operating income and expenses).

2.1.4. EBITDA before non-recurring items and Majorel synergy costs

EBITDA before non-recurring items, less any non-recurring costs incurred in respect of the integration of Majorel and the realization of synergies following its acquisition.

(in millions of euros)	1 st half-year 2025	1 st half-year 2024
Operating profit	530	503
Depreciation and amortization	134	148
Amortization of intangible assets acquired as part of a business combination	112	110
Depreciation of right-of-use assets (personnel-related)	9	8
Depreciation of right-of-use assets	118	123
Impairment loss on goodwill	-	1
Share-based payments	45	48
Other operating income and expenses	1	5
EBITDA BEFORE NON-RECURRING ITEMS	949	946
Costs of synergies related to the Majorel acquisition	9	36
EBITDA BEFORE NON-RECURRING ITEMS (EXCLUDING SYNERGY GENERATION COSTS)	958	982

2.1.5. Non-recurring items

Unusual items by reason of their occurrence or amount, in particular gains and losses on the disposal of intangible assets and property, plant and equipment, certain costs of restructuring and personnel terminations, certain significant litigations, transaction costs and company closures.

2.1.6. EBITA before non-recurring items (*Earnings Before Interest, Taxes and Amortization*)

Operating profit or loss before amortization of intangible assets acquired as part of a business combination, goodwill impairment losses, share-based payments expense and non-recurring items (presented as other operating income and expenses).

(in millions of euros)	1 st half-year 2025	1 st half-year 2024
Operating profit	530	503
Amortization of intangibles assets acquired as part of a business combination	112	110
Impairment loss on goodwill	-	1

Loan hedging instruments (net)	-	3
Cash and cash equivalents	-1,227	-1,058
NET DEBT	4,482	3,890

2.2. BUSINESS IN THE FIRST HALF OF 2025

2.2.1. Highlights

On February 5, 2025, the Group finalized the acquisition of the entire share capital of ZP Better Together, a leader in the provision of language solutions and technology platforms to deaf and hard of hearing individuals in the United States.

The acquisition price, which amounted to US\$500.9 million (see note 2.4 Scope of consolidation below), is final and was entirely financed through debt. The company has been included in the Group's scope of consolidation since February 1, 2025.

2.2.2. Consolidated revenues

Revenues for the first half of 2025 amounted to €5,116 million, up 1.5% like-for-like⁽¹⁾ (including a -0.2% negative effect from hyperinflation). On a reported basis, revenues were up 0.8%, including:

- a positive scope effect of 89 million related to the consolidation of ZP 'Better Together' (ZP) since February 1, 2025;
- a negative currency effect of -€121 million arising mainly from the strengthening of the euro, mainly during the second quarter, against most currencies in Latin America, the Egyptian pound, the US dollar, the Turkish lira and the Indian rupee.

The solid like-for-like performance in the first half was supported by TP's resilient operating model in a still uncertain macroeconomic

environment. Growth was notably led by higher volumes thanks to the improvement in commercial momentum, with both new and existing clients, mainly in Europe. AI-powered data services, data analytics and back-office services saw strong growth, although from a still low basis of comparison, thanks to contract ramp-ups, reflecting TP's ability to leverage its capabilities to seize new opportunities from new value streams related to AI. By sector, public services, consumer goods, and media, entertainment & gaming were among the most dynamic in the first half. The lower revenues in Specialized Services resulted from the non-renewal of a significant visa application management contract and the softened growth in LanguageLine Solutions' interpretation activities due to the current volatile business environment in the US.

/ REVENUES BY ACTIVITY

(in millions of euros)	1 st half-year 2025	1 st half-year 2024	% change	
			Reported	Like-for-like
Core Services	4,349	4,340	0.2%	2.9%
Americas	2,024	2,089	-3.1%	0.9%
Europe, MEA & Asia-Pacific	2,325	2,251	3.3%	4.7%
Specialized Services	767	736	4.2%	-7.0%
TOTAL	5,116	5,076	0.8%	1.5%

Core services

Like-for-like revenues growth accelerated in the second quarter, reflecting the broad-based positive momentum as well as the strong development of new AI solutions, although from a still low basis of comparison.

Americas

The ongoing good momentum in Latin America was mainly driven in the first half by the strong development of domestic solutions in Argentina, Mexico, and Brazil, particularly in the media, entertainment & gaming sector, with the ramp-up of several new contracts in Trust & Safety. In addition, nearshore solutions enjoyed improved attractiveness as their local currencies weakened against the US dollar.

In India, sustained robust growth demonstrated the ongoing demand for offshore BPO solutions. Domestic operations in the US, though still subdued, showed a clear improvement in the second quarter relative to the first quarter, with lower negative impact from offshore migration.

The public services and energy sectors were the most dynamic in the first half thanks to the ramp up of new contracts. Growth in the

media, entertainment & gaming and consumer goods sectors remained solid. Activity was lower in the automotive sector.

Europe, MEA & Asia-Pacific

Like-for-like revenues growth accelerated in the second quarter, notably led by the good momentum of new business.

Activities in the United Kingdom grew strongly over the first half of 2025, thanks to the ongoing ramp up of new contracts, especially in public services and banking and financial services.

In the Asia-Pacific region, business continued to develop rapidly, particularly in Malaysia and Indonesia, supported by the ongoing ramp-up of new contracts in the media, entertainment & gaming sector.

(1) Adjusted for the impact of the non-renewal of a significant visa application management contract in Specialized Services, like-for-like growth stood at 2.9% in the first half.

The satisfactory growth of multilingual services is supported by very good performances recorded in the Middle East, particularly in Egypt and Turkey, where the Group offers competitive shoring solutions. Overall, growth of multilingual services in the region was driven by the consumer goods, insurance, retail and e-commerce, public services, and healthcare sectors. Back-office solutions and AI

data services and analytics saw strong growth, although from a still low basis of comparison, in the first half thanks to contract ramp-ups, notably in Greece.

In the sub-Saharan Africa region, operations continued to develop at a good pace particularly in South Africa, the main contributor to the Region's revenues.

Specialized Services

Like-for-like growth in the first half of 2025 was mainly affected by the non-renewal of a significant visa application management contract (TLScontact). Adjusted for this impact, growth in Specialized Services would have been 3.0% in the first half 2025.

The high-value-added interpretation activities of LanguageLine Solutions achieved low single digit revenues growth in the first half due to the volatile business environment in the US.

2.2.3. Operating results

In the first half of 2025, Group's EBITA enjoyed growth acceleration in Core Services, the cost synergies plan related to the acquisition of Majorel and the consolidation of ZP. These impacts were nevertheless offset by the non-renewal of a significant visa application management contract, the volatile macroeconomic environment significantly affecting exchange rates and the

softening of LanguageLine Solutions' growth. Excluding the currency effect, the Group maintained its profitability at the same level as in the first half of 2024 at 13.9%, despite an unfavorable mix effect coming from the lower weight of Specialized Services to Group EBITA. On a reported basis, EBITA margin stood at 13.6% in the first half of 2025.

/ OPERATING EARNINGS BY ACTIVITY

EBITA before non-recurring items (in millions of euros)	1 st half-year 2025	1 st half-year 2024
Core Services	485	477
% revenues	11.1%	11.0%
Americas	240	249
% revenues	11.8%	11.9%
Europe, MEA & Asia-Pacific	226	209
% revenues	9.7%	9.3%
Holdings	19	19
Specialized Services	212	226
% revenues	27.7%	30.7%
TOTAL EBITA BEFORE NON-RECURRING ITEMS*	697	703
% revenues	13.6%	13.9%

* Excluding synergy generation costs linked to the Majorel acquisition.

Core Services

Core Services delivered EBITA before non-recurring items of €485 million and a margin of 11.1% in the first half of 2025, up 10 bps compared with the first half of 2024 driven by the overall revenues growth, and the cost synergies plan related to the acquisition of Majorel and despite the adverse currency effect.

Specialized Services

The profitability of LanguageLine Solutions, the largest component of Specialized services, saw a sharp sequential improvement over the first half thanks to the rapid adjustment to realign the number of interpreters to the activity at the start of the year. Margin were restored to 2024 levels over of the second quarter.

In addition, as expected, the negative impact from the non-renewal of a significant visa application management contract (TLScontact) was offset by the positive contribution from the full consolidation of ZP from February 1, 2025.

2.2.4. Other significant features of the 2025 1st half-year results

Group EBIT amounted to €530 million compared with €503 million in the same period of 2024.

EBIT for the 2025 first half-year includes amortization expense on intangible assets of -€112 million (-€110 million in the first half of 2024) and share-based payment expense of -€45 million in respect of incentive share plans (-€48 million in the first half of 2024).

The financial result is a net expense of -€158 million, compared with -€99 million in the first half of 2024. Despite an increase in net debt in the first half of 2025, largely due to the financing of the acquisition of ZP Better Together, financial expenses declined

slightly as the Group benefited from lower EUR and USD rates on the variable portion of its financial debt. In addition, deposits benefited from an exceptionally higher volume effect in the first half of this year. Net foreign exchange losses nevertheless had a negative impact on the financial result, mainly due to an unfavorable comparison base for the Egyptian pound.

The income tax expense amounted to -€123 million. The effective income tax rate for the Group is 33.1%, compared with 28%.

Net profit – Group share amounts to €249 million in the first half of 2025, compared with €291 million in the same period last year.

2.3. CAPITAL STRUCTURE AND CASH FLOW

2.3.1. Group financial structure at June 30, 2025

/ LONG-TERM FINANCING

<i>(en millions d'euros)</i>	6/30/2025	12/31/2024
Total equity	3,951	4,556
Non-current financial liabilities (excluding loan hedging instruments)	3,926	3,587
TOTAL LONG-TERM FINANCING	7,877	8,143

Non-current financial liabilities at June 30, 2025 and December 31, 2024 include lease liabilities amounting to €585 million and €580 million, respectively.

The Group has a revolving credit facility of €500 million, obtained in the first half of 2023 and available until January 2030. There are no financial covenants attached to this facility, and interest is indexed on CSR criteria.

This facility added to that of €1 billion obtained on February 11, 2021 and that was subject to a first two years extension in 2023; this earlier facility is now available, until February 2027 with an option for further extension to February 2028.

The total unutilized balance on these two outstanding syndicated multicurrency (EUR and USD) facilities is €1,159 million as of June 30, 2025 following total draw-down of US\$400 million on the €1 billion facility expiring in February 2027.

/ SHORT-TERM FINANCING

<i>(en millions d'euros)</i>	6/30/2025	12/31/2024
Current financial liabilities (excluding loan hedging instruments)	1,789	1,363
Cash and cash equivalents	1,227	1,058
CASH SURPLUS (DEFICIT), NET OF CURRENT FINANCIAL LIABILITIES	-562	-305

Current financial liabilities at June 30, 2025 and December 31, 2024 include lease liabilities amounting to €211 million and €216 million, respectively.

At June 30, 2025, net debt, which includes the fair values of loan hedging instruments, amounts to €4,482 million, of which €796 million relates to the recognition of lease liabilities. Group financing remains solidly based, with equity of €3,951 million as of June 30, 2025.

2.3.2. Group cash flows in the first six months of 2025

/ SOURCES AND VOLUMES OF CASH FLOWS

(en millions d'euros)	1 st half-year 2025	1 st half-year 2024
Internally generated funds from operations	710	817
Change in working capital requirements	-122	-46
Net cash flow from operating activities	588	771
Acquisition of intangible assets and property, plant and equipment, net of disposals	-115	-86
Loan granted, net of repayments	0	0
Acquisition of subsidiaries, net of cash acquired	-459	
Acquisition of non-consolidated investments	-22	
Net cash flow from investing activities	-596	-86
Increase in share capital	-30	-117
Change in ownership interests in controlled entities		-6
Dividend payments	-248	-231
Financial interest paid	-57	-73
Lease payments	-157	-164
Net change in other financial liabilities	721	42
Net cash flow from financial activities	229	-549
NET CHANGE IN CASH AND CASH EQUIVALENTS	221	136

The Group's internally generated funds from operations amounted to €710 million in the first half of 2025. The inclusion of lease payments in this heading (€157 million in the first half of 2025 and €164 million in the same period of 2024) would have resulted in adjusted amounts of €553 million and €653 million, respectively.

Change in working capital in the first half of 2025 is less favorable than last year (a decline of -€122 million, compared with -€46 million in the same period last year). This change mainly reflects the lower reimbursement of VAT credit compared with the first half of 2024 (for over €50 million) as well as the increased cloud subscriptions and the roll out of the AI partnerships in the first semester 2025 (for €30 million).

Capital expenditure on assets used in operations net of proceeds from disposals amounts to €115 million in the first half of 2025 (1st half-year 2024: €86 million), and represents 2.2% of Group revenues compared with 1.7% in the same period last year.

Interest payments amounted to €57 million in the first half of 2025 (1st half-year 2024: €73 million). This decrease in interest paid is mainly due to the increase in accrued interest not yet due as of June 30, 2025 given the new €500 million bond issued in January 2025

and the additional draw-down of US\$300 million on the €1 billion credit facility.

As a result of the above factors, free cash flow amounts to €259 million, compared with €448 million in the same period last year.

The acquisitions of subsidiaries, of minority shareholders' interests in a Qatari entity and non consolidated investments represented a total investment of €501 million, and required a cash outflow of €481 million in the first half of 2025.

Dividend payments and purchases of treasury shares in the first half of 2025 resulted in cash outflows of €248 million and €30 million, respectively.

After taking account of:

- the net increase in lease liabilities of €50 million over 2024,
- price adjustments of €4 million to be paid in respect of the acquisition of Agents Only in Canada, and
- certain other non-cash items of €38 million (principally accrued interest on the two bond issues in November 2023 totaling €1.4 billion in respect of the Majorel acquisition),

net debt of the Group amounts to €4,482 million at June 30, 2025, compared with €3,890 million at December 31, 2024.

2.4. CONSOLIDATION SCOPE

As disclosed in note 2.1. *Changes in consolidation scope during 2025* set out in section 1.6 of the condensed consolidated interim financial statements, the Group has made several operations affecting its consolidation scope in the first half of 2025, as follows:

Acquisition of ZP Better Together

On February 5, 2025, the Group finalized the acquisition of the entire share capital of the US company ZP Better Together, a leader in the provision of language solutions and technology platforms to deaf and hard of hearing individuals. The acquisition, announced on November 26, 2024, has been approved by the relevant regulatory authorities. This acquisition, which enhances LanguageLine

Solutions' portfolio through the addition of key services, is in line with the Group's development strategy aiming to strengthen its Specialized Services business. The acquisition price amounted to US\$500.9 million and was entirely financed through debt. ZP Better Together has been fully consolidated by the Group with effect from February 1, 2025.

Agents Only

On June 18, 2025, the Group acquired the entire share capital of Agents Only, which is an AI-enabled crowdsourcing platform making available on request highly qualified experts in their particular field throughout the world. Consideration is fully payable in cash in a

total amount of US\$19.2 million including price adjustments of US\$4.6 million. Agents Only recorded revenues of approximately €1.8 million in 2024 and has been fully consolidated by the Group with effect from June 30, 2025.

Acquisition of a controlling interest in a Qatari entity

The Group has finalized the acquisition of the remaining 51% of the shares of its Qatar-based entity (previously 49% owned) for a consideration of €8.8 million. The entity was previously equity-accounted and is now fully consolidated with effect from June 30, 2025.

2.5. EVENTS AFTER THE REPORTING DATE

None.

2.6. TRENDS AND PROSPECTS

2.6.1. Risks and uncertainties

The Group is exposed to a series of risks which have been described in the 2024 year-end universal registration document filed with the AMF. Group management does not expect any significant change in these existing risks and uncertainties, or the occurrence of any new ones, during the second half of 2025.

2.6.2. Outlook

2025 annual objectives updated

2025 annual objectives are updated to reflect the exchange rates evolution and the activity of Specialized Services in the current volatile macroeconomic environment:

- Group like-for-like revenue growth at the lower end of the initial 2% and 4% range;
- Recurring EBITA margin between 15% and 15.1% at constant exchange rates;
- Strong net free cash flow generation of around €1 billion excluding non-recurring items.

2026-2028 financial objectives

On the back of the progress recorded in the first half of 2025 on the execution of the 'Future Forward' strategic plan, with sustained investments in the TP.ai platform and in people, TP has the following mid-term financial objectives:

- Returning to sustained mid-single digit like-for-like revenue yearly growth with 4-6% in 2028;
- Recurring EBITA margin at ~15.5% in 2028, expected post AI transformation;
- Generating cumulative net free cash flow of ~€3 billion including organic AI efforts incurred over 2026-2028.

STATUTORY AUDITORS' REVIEW REPORT

<u>4.1</u>	Statutory auditors' review report on the 2025 half-year financial information
------------	---

34

4.1. STATUTORY AUDITORS' REVIEW REPORT ON THE 2025 HALF-YEAR FINANCIAL INFORMATION

This is a free translation into English of the statutory auditors' review report on the half-yearly financial information issued in French and is provided solely for the convenience of English-speaking users. This report includes information relating to the specific verification of information given in the Group's half-yearly management report. This report should be read in conjunction with, and construed in accordance with, French law and professional standards applicable in France.

For the period from January 1, 2025, to June 30, 2025

To the Shareholders,

In compliance with the assignment entrusted to us by your shareholders meeting and in accordance with the requirements of article L. 451-1-2 III of the French Monetary and Financial Code (*code monétaire et financier*), we hereby report to you on:

- the review of the accompanying condensed half-yearly consolidated financial statements of Teleperformance, for the period from January 1, 2025, to June 30, 2025;
- the verification of the information presented in the half-yearly management report.

These condensed interim consolidated financial statements have been drawn up under the responsibility of the Board of Directors. Our role is to express our conclusion on these financial statements based on our limited review.

Conclusion on the financial statements

We conducted our review in accordance with professional standards applicable in France.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed half-yearly consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 - standard of the IFRSs as adopted by the European Union applicable to interim financial information.

Specific verification

We have also verified the information presented in the half-yearly management on the condensed half-yearly consolidated financial statements subject to our review.

We have no matters to report as to its fair presentation and consistency with the condensed half-yearly consolidated financial statements.
